

## **City of Kent, Ohio named a Bronze-level Bicycle Friendly Community by the League of American Bicyclists**

On January 29<sup>th</sup>, 2026, the League of American Bicyclists honored the efforts of the City of Kent to build better places for people to bike with a Bronze-level Bicycle Friendly Community (BFC) award. The City of Kent joins over 400 communities across the country in the movement for safer streets and better bicycling for everyone. The award recognizes the City of Kent for its commitment to creating transportation and recreational resources that benefit its residents of all ages and abilities while encouraging healthier and more sustainable transportation choices.

“Building better places to bike is a shared effort,” said Bill Nesper, executive director of the League of American Bicyclists. “The communities recognized here are part of a growing national movement, taking practical steps to support bicycling as a safe, accessible, and valuable part of everyday life.”

The League of American Bicyclists’ Bicycle Friendly America program sets the standard for how communities build and benchmark progress toward making biking better. The League strives to provide continual updates to the application as part of our commitment to help communities raise their standards for safety, equity, and accessibility.

This round of awards includes 79 new and renewing awardees, joining a total of 444 current Bicycle Friendly Communities in all 50 states and the District of Columbia. The Bronze BFC award recognizes the City of Kent’s commitment to improving conditions for all people who bike through investments in bike education programs, regular bike events that promote and encourage people to choose biking, pro-bike policies, and bike infrastructure.

Through these and other initiatives, the City of Kent—working alongside valued community partners—is enhancing connections between neighborhoods and key destinations across the region. The goal is to provide residents with more convenient options for getting where they need to go, including safe and sustainable ways to travel without relying on a car. To learn more about the City of Kent’s Bike Master Plan, Bicycle Friendly Community Report Cards, Safe Routes to School program, Active Transportation and Safety Resources, and ways to get involved, visit <https://www.kentohio.gov/business-building-development/engineering/active-transportation/>.

Over 900 communities have applied for recognition by the Bicycle Friendly Community program, which provides a roadmap to making biking better for communities of all shapes and sizes. While the award process considers very visible elements such as bike infrastructure, other essential elements include efforts around adult and youth bike education, encouragement through events like Bike to Work Day, evaluation mechanisms, and enforcement all through the lens of equity. The rigorous application process is an educational tool in itself, and includes an opportunity for local bicyclists and active transportation advocates to provide input on their experiences and perceptions of bicycling in their community.

PROUD TO BE A LEAGUE-CERTIFIED

# BICYCLE FRIENDLY COMMUNITY

Recognized by the League of American Bicyclists

The five levels of the BFC award – diamond, platinum, gold, silver and bronze, plus an honorable mention category – provide a clear incentive for communities to continuously improve. Awarded communities must renew their status every four years to ensure that they not only maintain existing efforts, but also keep up with changing technology, national safety standards, and community-driven best practices.
